

aerobar

The first aerial bar in the world

A multi-purpose product very easy to use

An exceptionnal attraction for the public

Without practically any weather constraint, the AEROBAR can operate up to 45 mph of wind

Parc du Petit Prince started in 2014, Alsace - France

60 000 passengers in 2015 + 30%/year

Futuroscope started in 2013, Poitiers - France

DU FUTUROSCOPE

Use as the icone for the ad campaign of the 2nd
largest park in France

On the ground, an original bar as waiting room...

15 passengers flying aboard a gondola
in a metallic structure at 120 feet high

**Two operators only : the AEROBARMEN
one on ground, one in the gondola**

PHOTOGRAPHY

2 minutes to go up and down, 5 minutes on top

aerobar

Passengers enjoy three extraordinary experiences simultaneously with the certainty to keep an unforgettable memory

Strong sensations, feet in the sky

With an extraordinary panorama at 360°

The conviviality of an aerial bar...

aerobar

For the site, the Aerobar presents three advantages

A new icon in the scenery

A new innovative ride

Flight + soft : 6.50 euros

Flight + alcohol free cocktail : 8 euros

Flight + Beer : 7.50 euros

Flight + Champagne : 11 euros

Wine and cheese tasting : 12 euros

Self-financing

aerobar

A proven, reliable, and compact technical system

The balloon goes up thanks to 3 electrical motors located on the ground

The system is guided by 3 rails

Least floor space as possible(1700 sq feet)
